

## Scenario's

While the game is not running,  
If I press the start button,  
the game should run.

While the game is running,  
If I press the escape button,  
The game should pause.

While the game is running,  
If I press the arrow keys,  
the shark moves around on the screen according to the keys pressed.

While the game is running,  
If my shark collides with a fish  
And the fish is smaller than my shark,  
the other fish should disappear, the score goes up and my shark should grow.

While the game is running,  
If my shark collides with a fish  
And that fish is larger than my shark,  
the game should stop running and display my final score

While the game is running,  
Fish from different sizes should start appearing from the sides of the screen.
